

Emergency Go Kits

In the event you need to leave your home quickly during an emergency or disaster, all members of your household should have Emergency Go Kits stored in an easily accessible location in your home. Your Emergency Go Kit should contain essential items to sustain you and your family for up to **24 hours**. Review the items in your kits every 6 months and replace any items that have been used or have expired.

1 litre of water
(per person)

Food & treats

Baby wipes

Animal waste bags

Cat litter & container

Additional Considerations

Consider speciality diets and equipment needs when creating your Emergency Go Kits.

Non-perishable food for special diets. Consider special diets such as diabetic, gluten free, lactose free, nut free, vegan, kosher, low sodium & extra water.

Equipment for activities of daily living. Consider a walker, cane, wheelchair, oxygen, suction, dialysis equipment, hearing aids and extra batteries, magnifying glass, computer equipment, software and power supplies.
