

# LICENCE

Licence No. / Licence n° 1817 R

Issue Date / Date de délivrance May 4, 1994

Revised : May 17, 2011

In accordance with The Environment Act (C.C.S.M. c. E125) /  
Conformément à la Loi sur l'environnement (C.P.L.M. c. E125)

Pursuant to Sections 10(1) and 14(2)/ Conformément au Paragraphe 10(1) et 14(2)

THIS LICENCE IS ISSUED TO: / CETTE LICENCE EST DONNÉE À:

Laurex Seeds Ltd.; "the Licencee"

for the construction and operation of the Development being a crop protection products warehouse to be located on Lots 1 and 3 of SW 18-22-15 WPM in the Rural Municipality of Ste. Rose, located near the community of Laurier, in accordance with the Proposal filed under The Environment Act dated March 4, 1994 and additional information dated February 28, 2011, and subject to the following specifications, limits, terms and conditions:

## DEFINITIONS

In this Licence,

"**accredited laboratory**" means an analytical facility accredited by the Standard Council of Canada (SCC), or accredited by another accrediting agency recognized by Manitoba Conservation to be equivalent to the SCC, or be able to demonstrate, upon request, that it has the quality assurance/quality control (QA/QC) procedures in place equivalent to accreditation based on the international standard ISO/IEC 17025, or otherwise approved by the Director;

"**chemical**" includes, but is not limited to petroleum products, fertilizers and pesticides;

"**Director**" means an employee so designated pursuant to The Environment Act;

"**Environment Officer**" means an employee so designated pursuant to The Environment Act;

"**noise nuisance**" means an unwanted sound, in an affected area, which is annoying, troublesome, or disagreeable to a person:

**\*\*A COPY OF THE LICENCE MUST BE KEPT ON SITE AT THE DEVELOPMENT AT ALL TIMES\*\***

- a) residing in an affected area;
- b) working in an affected area; or
- c) present at a location in an affected area which is normally open to members of the public; and

if the unwanted sound

- d) is the subject of at least 5 written complaints, received by the Director in a form satisfactory to the Director, and within a 90 day period, from 5 different persons falling within clauses a), b), or c), who do not live in the same household;

"**opacity**" means the degree to which emissions reduce the transmission of light and obscure the view of an object in the background;

"**particulate matter**" means any finely divided liquid or solid matter other than water droplets;

"**particulate residue**" means that part or portion of an atmospheric emission which is deposited onto a surface;

"**pesticide storage structure(s)**" means any building(s) where agricultural crop protection products are stored for either commercial or retail purposes

"**point source**" means any point of emission from a Development where pollutants are ducted into the atmosphere;

"**secondary containment area**" means an area designed and constructed to contain any liquids, including chemicals and firewater, resulting from a significant event such as a fire, and prevent the release of pollutants beyond the contained area.

"**sewage**" means household and commercial wastewater that contains human waste.

### **GENERAL TERMS AND CONDITIONS**

This Section of the Licence contains requirements intended to provide guidance to the Licencee in implementing practices to ensure that the environment is maintained in such a manner as to sustain a high quality of life, including social and economic development, recreation and leisure for present and future Manitobans.

1. The Licencee shall, in addition to any of the following specifications, limits, terms and conditions specified in this Licence, upon the request of the Director:
  - a) sample, monitor, analyse or investigate specific areas of concern regarding any segment, component or aspect of pollutant storage, containment, treatment, handling, disposal or emission systems, for such pollutants or ambient quality,

- aquatic toxicity, leachate characteristics and discharge or emission rates, for such duration and at such frequencies as may be specified;
- b) determine the environmental impact associated with the release of any pollutants from the Development;
  - c) conduct specific investigations in response to the data gathered during environmental monitoring programs; or
  - d) provide the Director, within such time as may be specified, with such reports, drawings, specifications, analytical data, descriptions of sampling and analytical procedures being used, bioassay data, flow rate measurements and such other information as may from time to time be requested.
2. The Licencee shall meet or exceed the guidelines for Agrichemical Warehousing Standards Association (AWSA) certification.
  3. The Licencee shall install and maintain, for all pesticide storage structure(s), an automatic system(s) for fire detection and security.
  4. The Licencee shall, at all times during the operation of the Development, implement a high standard of equipment maintenance and operational practices.
  5. The Licencee shall reduce the production and dissemination of wastes by initiating and maintaining waste reduction and waste recycling programs.
  6. The Licencee shall obtain all necessary municipal, provincial and federal permits and approvals for construction of relevant components of the Development prior to commencement of construction.
  7. The Licencee shall ensure that, during construction or operation of the Development, spills of fuels or other contaminants are reported to an Environment Officer in accordance with the requirements of *Manitoba Regulation 439/87* respecting *Environmental Accident Reporting*.
  8. The Licencee shall, during construction and operation of the Development:
    - a) immediately report any reportable spills to Manitoba Conservation's Accident Reporting Line at (204) 944-4888; and
    - b) provide a follow-up report to the Director on a reportable environmental accident outlining the cause(s) and proposing corrective action to prevent reoccurrence.

**SPECIFICATIONS, LIMITS, TERMS AND CONDITIONS**

**Respecting Construction and Operation**

9. The Licencee shall construct and maintain concrete floors with a minimum 10 centimetres retention curbing around the perimeter of all chemical storage structure(s) so as to prevent spilled liquids from leaking into the soil.

---

10. The Licencee shall adequately dyke the Development to provide a secondary containment area, and install a gate valve at the lowest elevation point that controls surface water run-off from the secondary containment area. The gate valve shall remain in the closed position except for the supervised release of the accumulated surface water runoff where there have been no documented spills, or as authorized by an Environment Officer.
11. The Licencee shall notify Manitoba Conservation when any spill has occurred in the dyked secondary containment area. If the accumulated liquid within the secondary containment area may be contaminated, it shall be sampled and the sample shall be analyzed by an accredited laboratory prior to requesting authorization for release. The results of the analysis shall be included in the request for authorization for release. Following a spill, no accumulated liquid within the secondary containment area shall be released without the prior authorization of an Environment Officer.
12. The Licencee shall maintain a log of all spills that occur within the secondary containment area. The log shall include, but not be limited to, the date and time of the spill, substances involved, estimated volumes spilled, and the containment and clean up actions taken. This incident log shall be updated within 24 hours of all incidents.

**Respecting Emissions**

13. The Licencee shall not emit particulate matter from the Development such that:
  - a) particulate matter:
    - i) exceeds 0.23 grams per dry standard cubic metre calculated at 25 degrees Celsius and 760 millimetres of mercury, corrected to 12 percent carbon dioxide from any point source of the Development;
    - ii) exhibits a visible plume with an opacity of greater than 5 percent at any point beyond the property line of the Development; or
    - iii) results in the deposition of visible particulate residue at any time beyond the property line of the Development; or
  - b) opacity from any point source of the Development equals or exceeds:
    - i) 20 percent as the average of any 24 consecutive opacity observations taken at 15 second intervals;
    - ii) 20 percent for more than 16 individual opacity observations within any 1 hour period; or

iii) 40 percent for any individual opacity observation.

14. The Licencee shall not cause or permit a noise nuisance to be created as a result of the operation or alteration of the Development, and shall take such steps as the Director may require to eliminate or mitigate a noise nuisance.
15. The Licencee shall, unless otherwise specified in this Licence:
  - ~~a) carry out all preservations and analyses on liquid samples in accordance with the methods prescribed in the most current edition of Standard Methods for the Examination of Water and Wastewater or in accordance with equivalent preservation and analytical methodologies approved by the Director;~~
  - b) carry out all sampling of, and preservation and analyses on, soil and air samples in accordance with methodologies approved by the Director;
  - c) only utilize an accredited laboratory for analytical determinations; and
  - d) report the results to the Director within 60 days of the samples being taken, or within another timeframe as specified by the Director.
16. The Licencee shall contain in the secondary containment area of the Development:
  - a) any on-site chemical spill;
  - b) waste water generated from any response action due to an on-site release of chemicals; and
  - c) contaminated water resulting from the extinguishing of any fire involving chemicals.
17. The Licencee shall clean up immediately any chemical spills in order to prevent soil, surface water or ground water contamination.
18. The Licencee, subject to obtaining approval from an Environment Officer, shall immediately dispose of any contaminated material in accordance with the approval.
19. The Licencee shall not direct any spillage, contaminated run-off or pollutant, other than sewage, to an approved sewage disposal system.

#### **Respecting Pesticides**

20. The Licencee shall create and maintain a current duplicate inventory of all pesticides stored at the Development, with one copy stored at the premises of the Development, and the other copy stored at a location off-site from the Development.
21. The Licencee shall store only pesticides registered under the federal *Pest Control Products Act* at the Development.
22. The Licencee shall locate pesticide storage structure(s) a minimum distance of:
  - a) 100 metres from any property zoned residential; and
  - b) 100 metres from single residencesunless a written consent form is obtained from the owner(s).

**Respecting Emergency Response Planning**

23. The Licencee shall submit, within ninety (90) days of the issuance of this Licence, an emergency response contingency plan to be approved by the Director. This plan shall include, but not be limited to, items which will address: measures implemented for spill prevention and containment; security; personnel training; and fire and other response arrangements.
- 

**Respecting Site Decommissioning**

24. The Licencee shall submit within one (1) year prior to closure of the facility, for the approval of the Director, a formal detailed Decommissioning Plan for the facility.
25. The Licencee shall implement, on closure of the facility, the approved Decommissioning Plan.

**REVIEW AND REVOCATION**

- A. Environment Act Licence No. 1817 is hereby rescinded.
- B. If, in the opinion of the Director, the Licencee has exceeded or is exceeding or has or is failing to meet the specifications, limits, terms, or conditions set out in this Licence, the Director may, temporarily or permanently, revoke this Licence.
- C. If, in the opinion of the Director, new evidence warrants a change in the specifications, limits, terms, or conditions of this Licence, the Director may require the filing of a new proposal pursuant to Section 10 of The Environment Act.

Mr. Trent VanHumbeck  
Laurex Seeds Ltd.  
Box 55  
Laurier MB R0J 1A0

Dear Mr. VanHumbeck :

**Re: Laurex Seeds Ltd. - Crop Protection Products Warehouse in SW 18-22-15 W  
Environment Act Licence No. 1817 R, Client File: 3754.00**

This is in response to a request of February 28, 2011 from David Klassen of Kelsen Agritech Inc., requesting an alteration to Environment Act Licence No. 1817 in connection with a change in the location of the crop protection products warehouse for the above operation.

Environment Act Licence No. 1817 R is enclosed, incorporating the requested alteration, and updating licence conditions to current operating requirements.

In addition to the enclosed Licence requirements, please be informed that all other applicable federal and provincial regulations must be complied with. A Notice of Alteration must be filed with the Director for approval prior to any alteration to the Development as licensed.

If you have any questions on the administration and application of the Licence, please feel free to contact Ms. Nicole Lavallee at (204) 622-2125.

Pursuant to Section 27 of the Environment Act, this licensing decision may be appealed by any person who is affected by the issuance of this Licence to the Minister of Conservation within 30 days of the date of the Licence.

Yours truly,

Tracey Braun, M.Sc.  
Director  
Environment Act

Enc
