Mr. John McCready,
Manager,
The International Nickel
Company of Canada, Limited,
THOMPSON, Manitoba.

Dear Sir:

Re: Ordinary Licence - North Soab Mine Site

This licence is issued pursuant to The Clean Environment Act permitting The International Nickel Company of Canada, Limited, to discharge a combination of septic tank effluent and waste shower water, both arising from the operation of the sanitary waste collection system associated with the North Soab mine, into the waters of Soab Creek, subject to the following condition:

the Company shall ensure that the combined effluent and waste water shall be continuously chlorinated to provide a residual of 0.5 milligrams per litre of chlorine after fifteen minutes contact.

Yours very truly,

Peter Warner

Chairman,
The Clean Environment Commission.
