AN ORDER OF THE CLEAN ENVIRONMENT COMMISSION
 UNDER THE CLEAN ENVIRONMENT ACT

RE: THE CLEAN ENVIRONMENT COMMISSION and FOREMOST SAILCRAFT LTD., Applicant,

WHEREAS pursuant to the provisions of The Clean Environment Act, Foremost Sailcraft Ltd. filed an application with the Department in connection with the operation of a plant for the manufacture of tanks, van interiors and other items from fiberglass reinforced plastic located on Block A, Plan 31, W/S Main Street in the Town of Carman, Manitoba;

AND WHEREAS in the absence of limits, terms and conditions prescribed by a regulation under the said Act, the application was referred to The Clean Environment Commission to prescribe limits, terms and conditions;

AND WHEREAS after giving notice, the Commission received a representation from a person who is likely to be affected by an order of the Commission issued in connection with the said operation;

AND WHEREAS the Commission held a hearing in Carman on the 16th day of March, 1982;

AND WHEREAS the Commission considered the application on the 19th day of April, 1982;

IT IS HEREBY ORDERED THAT

1. The Applicant shall not permit the emission of particulate matter from any point of emission of the said operation to exceed 0.57 grams per standard cubic metre calculated at 25 degrees Celsius and 760 millimetres of mercury at the point of emission.
2. The Applicant shall limit the emission of odour from the said operation to such an extent that odours emanating from the operation are not detectable in a residential area when one volume of odorous air is diluted with an equal volume of odour-free air.

3. The Applicant shall limit sound emissions to such an extent that sound emissions from the said operation, when measured beyond the property line of the operation within a residential area, do not result in an hourly equivalent continuous sound level in excess of:
 - (a) 60 dBA during the daytime hours of 7:00 a.m. to 10:00 p.m., local time;
 - (b) 50 dBA during the nighttime hours of 10:00 p.m. to 7:00 a.m., local time.
4. The Applicant shall, at all times, maintain a high standard of equipment maintenance and good housekeeping consistent with meeting the limits, terms and conditions prescribed in this order.
5. In this order, "hourly equivalent continuous sound level" means a sound level averaged over a one hour period (60 minutes) using a sound level monitoring device which equals or surpasses the requirements of Canadian Standards Association Standard Z107.1 - 1973 (or the equivalent) for Type 2 sound level meters, operated on the "A-weighting network" and "slow" meter response.
6. The limits, terms and conditions prescribed in this order shall be effective on and after the 1st day of September, 1982.

Order No. 944

Dated at the City of Winnipeg
this 28th day of April, 1982.

Chairman,
The Clean Environment Commission.
