Dear Sheldon Stott:

Re: HyLife Foods LP – Environment Act Licence No. 1102 RRR – Notice of Alteration

Receipt of your March 15, 2021 submission and April 1, 2021 additional information is acknowledged as a notice of alteration in accordance with Section 14 of The Environment Act.

The requested change to the Development as Licensed is an interim increase in hog processing by 200 hogs/day (a 2.5% daily increase in processing) 5 days/week and including up to 8 full processing shifts (processing 8200 hogs/day) over the course of a year. In total, this increase would result in a 5% production rate increase overall to 42,260 hogs/week.

Specifically, the information provided states that the increase in hog processing is required due to the surplus of hogs in the marketplace due to Covid-19 and other related market conditions. The submission also states that the additional wastewater generated by the processing increase will be accommodated by the R3 Innovations Industrial Wastewater Treatment Facility and that no infrastructure changes are required at the plant to accommodate the proposed change.

The potential environmental effect of the requested changes to the Development as Licensed is insignificant and considered to be a minor alteration in accordance with Section 14(2) of The Environment Act. Approval is hereby granted for the interim increase in production capacity at the Development as described in your March 15, 2021 submission and April 1, 2021 additional information.

If you have any questions, please contact Jennifer Winsor, P.Eng., Senior Environmental Engineer, Environmental Approvals Branch, at Jennifer.Winsor@gov.mb.ca or 204-945-7012.

Yours sincerely,
