May 24, 2016

Mr. Colin Welch
Canexus Limited
8080 Richmond Ave. East
Brandon, MB R7A 6A6

Dear Mr. Welch:

**Re: Canexus Chemicals Canada Limited Partnership – Licence No. 2619 RRRR –
Notice of Alteration**

Receipt of your May 4, 2016 letter is acknowledged as a notice of alteration in accordance with section 14 of *The Environment Act*.

The requested change to the Development as Licensed is to utilize a new antiscalent product in the reverse osmosis water treatment system. The information provided states that the new antiscalent product is very similar in composition to the current product approved for usage. The new product will be fed at a lower concentration which will result in a reduction in chemical consumption and there will be little change in the phosphorus contribution in the deep injection reject water.

The potential environmental effect of the requested change to the development as Licensed is insignificant and considered to be a minor alteration in accordance with section 14(2) of *The Environment Act*. Approval is hereby granted for the usage of the new antiscalent product as described in your May 4, 2016 letter.

If you have any questions, please contact Jennifer Winsor, P.Eng. at 204-945-7012.

Yours sincerely,

“original signed by”
