Dear Ms. Dagdick:

The Environment Act License #2601 extension issued to the Mountain Quota Holders Association on June 10, 2013 expires May 31, 2014. (File 4613.10)

Manitoba Conservation and Water Stewardship (Forestry Branch) requested in late 2013 that the forest management planning period be changed from a one year operating plan (AOP) to a two year operating plan (OP). The 2014-16 Operating Plan has been approved by MCWS.

The Mountain Quota Holders Association is therefore requesting a two year extension to Environment Act License #2601 to allow continuation of the current forest management agreement with Manitoba Conservation and Water Stewardship for Forest Management Units 12 and 14 within the Mountain Forest Section.

If you have any questions, please give me a call at 734-3089.

Sincerely,

Rick Bobby  
Mountain Quota Holders Association
