Hi Bruce:

Attached is a copy of a letter indicating that an environmental assessment under the *Canadian Environmental Assessment Act* may be required. DFO and TC both require additional information in order to determine whether an EA under the Act is required. Attached are copies of responses received from federal departments and documents relating to the *Navigable Waters Protection Act*.

Dear Mr. Webb:

Subject: Tim Horton Children's Foundation Youth Leadership Camp – Sylvia Lake

I have completed a survey of federal departments with respect to determining interest in the project noted above. I can confirm that the project information that was provided has been shared with all federal departments with a potential interest. I am enclosing copies of the relevant responses for your file. Based on the responses to the survey the application of the *Canadian Environmental Assessment Act* (the Act) by a federal authority is uncertain for this project.

Fisheries and Oceans Canada (DFO) has indicated that they need additional information in order to determine whether or not the Act will be triggered. Once that information has been reviewed by DFO, a determination will be made on whether the Act applies. I will notify you of DFO's determination once it has been made.

Transport Canada (TC) advises that they also require additional information in order to determine whether or not the Act will be triggered. This information should be provided in the form of a completed application for approval under the *Navigable Waters Protection Act* (NWPA). The application must be submitted to TC's Navigable Waters Protection Program (NWPP) for review (see attached application form and application guide). The address for the NWPP is:

Navigable Waters Protection Program
Transport Canada
1100 – 9700 Jasper Avenue
Edmonton, AB T5J 4E6

Environment Canada (EC) and Health Canada have confirmed that they can provide specialist advice on request. Contact information is contained in the attached copies of their responses to the Agency's survey.

Thank you again for your continuing effort to ensure coordination and close communication between provincial and federal levels of government with respect to environmental assessment. If I can be of further assistance, please feel free to contact me by telephone at (204) 984-8020 or by e-mail at: peter.boothroyd@ceaa-acee.gc.ca.

Sincerely,

Peter Boothroyd
Project Manager

Response Requested by January 4, 2011

In accordance with information-sharing requirements of the *Canada-Manitoba Agreement on Environmental Assessment Cooperation* (the Agreement), the Environmental Assessment and Licensing Branch, Manitoba Conservation (MC) has provided a copy of the above-referenced project proposal for review. The proposal is currently being considered by MC, pursuant to The Environment Act.

Please refer to your copy of the proposal documents for your departmental review. Please indicate (by checking the appropriate box) whether or not your department/agency:

1. has, or anticipates, a responsibility under Section 5(1) of CEAA to assess the environmental effects of the project (i.e. are an RA). _____ Yes _____ No
If yes, indicate trigger: _____

2. to determine whether, within your departmental mandate, you would be able to offer specialist advice to a Responsible Authority if requested (subsection 12(3) of the Act); and _____ Yes _____ No
Specify as appropriate: _____

3. requires additional information to make a determination referred to in a) or b) above: _____ Yes _____ No
If yes, please describe additional information requirements or forward a request within 10 days after making the determination: _____

4. in the absence of a federal trigger, has an interest in the project related to its departmental mandate, and would like to participate in the provincial review (Clause 38(1) of the Agreement). _____ Yes _____ No
If yes, please describe requested involvement i.e. comments for the provincial Guidelines, review of EIS, etc. _____

Please respond on or before **January 4, 2011**. If your response to any of the above determinations is positive, please provide the name and means of contact for a departmental representative for the review.

Dear Mr. Boothroyd:

**Re: Tim Horton Children's Foundation Youth Leadership Camp
Sylvia Lake, Manitoba**

Thank you for providing us with a copy of the Project Description and FCR for the Tim Horton Children's Foundation Youth Leadership Camp – Sylvia Lake, Manitoba. Environment Canada (EC) has had an opportunity to review these documents and offers the following.

EC is not a Responsible Authority (RA) under the *Canadian Environmental Assessment Act (CEAA)* because:

- EC is not a proponent of the project and is not conducting any act or thing that commits the department to carrying out the project in whole or in part;
- EC is not making or authorizing any form of payment or other financial assistance to the proponent for the purpose of enabling the project to be carried out in whole or in part;
- EC does not administer any lands involved in enabling the project to be carried out in whole or in part; and
- EC does not issue a permit, license, grant an approval or take any action for the purpose of enabling the project to be carried out, in whole or in part.

For the purposes of subsection 12(3) of the *CEAA*, EC may possess specialist or expert information or knowledge that may apply to the project. Should an RA identify any specific environmental concerns with respect to the aforementioned project, EC, as a Federal Authority, will provide specialist or expert information or knowledge pursuant to subsection 12(3) of the *CEAA*. We would ask that, if this is the case, the RA request would include specific questions or concerns that it would like EC to address.

Canada

Further, upon confirmation of triggers pursuant to the *CEAA* and receipt of the foregoing request, EC would like to be kept informed, but does not intend to formally participate in the provincial environmental assessment review of this project.

If you have any questions concerning the above, please contact me at 983-1781.

Sincerely

A handwritten signature in black ink, appearing to read "Lorna Hendrickson".

Subject: Health Canada's FCR response regarding the Tim Horton Children's Foundation Youth Leadership Camp Project

Dear Mr. Boothroyd;

Thank you for your notification letter received on December 3, 2010 inquiring about Health Canada's role in the environmental assessment of the aforementioned project under the Federal Coordination Regulations.

Based on the information provided, Health Canada has determined that it is not a Responsible Authority (RA) under Section 5 of the *Canadian Environmental Assessment Act* (the Act) with regards to the present scope of the project.

In the context of subsection 12(3) of the Act, Health Canada currently has expertise in the following biophysical areas related to human health that may apply to the project:

- Air quality health effects
- Contamination of country foods (e.g. fish, wild game, garden produce, berries, etc)
- Drinking and recreational water quality
- Radiological effects
- Electric and magnetic fields effects
- Noise impacts
- Human health risk assessment (HHRA) and risk management

- Federal air, water, and soil quality guidelines/standards used in HHRAs
- Toxicology (multimedia - air, water, soil), and
- First Nations and Inuit Health

Should an RA, or a territorial / provincial authority, identify any specific human health concerns with respect to the aforementioned project, Health Canada would be pleased to provide expertise upon request as a Federal Authority, pursuant to subsection 12(3) of the Act, or under a territorial / provincial EA process.

Note that Health Canada now requires a written request prior to providing any expertise in its possession. The request should be specific on the nature of the expertise requested, preferably outlining targeted questions or concerns, and should include the deadline for Health Canada's response. In order to assist us and avoid unnecessary delays, it is suggested that project information such as the scope of project, the scope of the assessment and the subject areas and/or portions of documents to be reviewed be provided at the time of the request for advice, if you have not already done so.

Your written request for expertise should be forwarded to the attention of the undersigned.

Sincerely,

Jackie Schollie on behalf of:
Rick Grabowecky, MSc.
Regional Environmental Assessment Coordinator
