Dear Mr. Park:

**Re: Brady Road Resource Management Facility, Licence No. 3081 R –
Notice of Alteration for Biosolids Composting**

Receipt of your January 22, 2019 letter is acknowledged as a notice of alteration in accordance with section 14 of The Environment Act.

The requested change to the Development as licenced is for authorization to utilize the Biosolids Composting area for the continued composting of Biosolids.

The potential environmental effect of the requested change to the Development as Licensed is insignificant, and considered to be a minor alteration in accordance with section 14(2) of The Environment Act; therefore, you are hereby approved to operate the biosolids composting area under Licence 3081 R, subject to the following terms and conditions:

1. Clauses 67, 68, 69 and 78 of Licence 3081 R are rescinded.
2. Clause 70 is revised to read as follows:
 70. The Licencee shall restrict the annual flow of biosolids to the Biosolids Composting Facility to a maximum of twenty percent (20%) of the biosolids that are generated from the City of Winnipeg's three water pollution control centres.

Due to changes to the Dangerous Goods Handling and Transportation Act in 2018, Licence 3081 R will be revised to include conditions from Licence 290 HW, resulting in a single licence issued to the Development.

Please be advised that this approval is contingent on the acceptance of a revised Licence that will be issued in the near future. If you have any questions on this matter, please contact Ms. Cory Graham at cory.graham@gov.mb.ca or (204) 250-7645.

Yours sincerely,

Tracey Braun, M.Sc.
