**RE: AMENDED LETTER - Compost Trial at De Salaberry Composting Facility – License 3004**

To Whom It May Concern:

Further to License 3004 that permitted the RM of De Salaberry to operate a compost trial at our landfill, please be advised that as of April 1, 2019, we terminated the program and stopped allowing compost to be deposited to the site.

We ask that our license be cancelled at this time. We do have residual material in the compost area that we plan to use as interim cover as well as a vegetative cover over the upcoming closed cell. We currently don't have any future plans for the use of the compost area.

Should you have any questions or concerns, please do not hesitate to contact the writer.

Sincerely,

Melissa Groening, CAO
