**Subject:** RE: Request for review & comment - Due Nov. 5, 2013 - DGH&T - Direct LP - Waste battery  
Transfer File: 5669.00

The Office of the Fire Commissioner (OFC) recommends that with the proposed temporary storage of a large number of waste lead batteries at this facility, this may require a change of Occupancy Permit from the authority having jurisdiction, the City of Winnipeg, Planning, Property and Development Department at 83 Fort Street, Winnipeg, to ensure this proposed waste battery storage facility is in compliance to the Winnipeg Building By-law and Winnipeg Zoning by-laws for this new use of the industrial storage warehouse at 55 Rothwell Road. Also, the proponent shall submit an updated Fire Safety Plan, as required by the Manitoba Fire Code, to the Winnipeg Fire Paramedic Service at 185 King Street.

**Subject:** FW: Request for review & comment - Due Nov. 5, 2013 - DGH&T - Direct LP - Waste battery  
Transfer File: 5669.00

Hi, AQ has no comment on the proposal as it is expected that it will have no significant impact on air quality.

Thanks you for the opportunity to review,  
Rommel

Mr. Rathamano,

I reviewed the above noted EAP and found no issues of concern in it respecting drinking water safety.

If you have any questions, please call.

Regards,

**Subject:** DGH&T 5669/00 - Direct LP - Waste battery Transfer File: due Nov 5 2013

Hi Raj,

Fisheries Branch has reviewed this proposal for a waste battery transfer site at 55 Rothwell Road in Winnipeg. Given the location of the storage site as long as there is adequate containment, in the event of a spill or emergency and any material can be disposed of and/or treated prior to release, we should have no fisheries concerns with this proposal. Thanks Raj.

Hello Raj,

I reviewed the above noted proposal on behalf of the Water Quality Management Section of Manitoba Conservation and Water Stewardship. I have no substantive comments with respect to surface water quality at the present time.

Thank you,

Kevin.
