Subject: RE: Request for review/comment - DGHT application 5835.00 Snow Lake Used Oil Facility

Hi Cory,

I spoke to the Town of Snow Lake and I was forwarded the information that I needed, namely how close this is to a water body and the surface flow direction.

The Office of Drinking Water has no concerns with this project; however, in the case of a significant spill the Snow Lake water treatment plant operator should be notified.

Thank you,

Daniel Drimes, C.E.T.

Subject: RE: Request for review/comment - DGHT application 5835.00 Snow Lake Used Oil Facility

Hi Cory,

I reviewed the above noted DHGT application. It does not state the proximity of the proposed site to any water body that is used as a raw water source for any public or semi-public water system. In this case the Town of Snow Lake does use the lake as a source water. There is no mention of surface water flow direction toward or away from Snow Lake.

As such, based upon the information given in the DGHT application, I cannot comment on whether Office of Drinking Water would have any concerns respecting drinking water safety with this proposed development.

If you have any questions, feel free to contact me.

Sincerely,

Daniel Drimes, C.E.T.

SUBJECT: Snow Lake Used Oil Depot (File 5833.00)

Air Quality Section has reviewed the above proposal and provides the following comment:

- It is expected that the proposal has no significant impact on air quality provided that VOC containing materials like used oil will be stored properly to protect VOC release into the ambient air.
- Air Quality Section suggests that the EA Clause regarding noise and odour nuisance be included.
