Dear Mr. Lytwyn:

Re: Notice of Alteration – Winnipegosis Wastewater Treatment Lagoon – Environment Act Licence No. 907 VC

I am responding to the October 2, 2015 Notice of Alteration (NoA) email wherein it is indicated that rip rap will be installed on portions of the dykes of the Winnipegosis wastewater treatment lagoon (lagoon). Environment Act Licence No. 907 VC (Licence) applies to this lagoon.

The NoA indicates that portions of the south dykes of the two cells require repair to eroded areas and that such repair will be completed by installing rip rap underlain by geotextile material in those areas.

Upon review of this NoA letter and the Licence, I have decided that the environmental impacts of the proposed dyke repair work are insignificant. Accordingly, I hereby approve the proposed dyke repair work.

If you have any questions or would like to discuss the foregoing, please contact Robert Boswick, Environmental Engineer, at 204-945-6030.

Yours sincerely,

“original signed by”

Tracey Braun, M.Sc.
Director
